Chicago Tribune.

VOLUME XIV. CHICAGO, SATURDAY, MAY 4, 1861 NUMBER 263.

FROM WASHINGTON.

The Starch Gone out of Secession!

NEWS FROM FORT MONROE.

THE BLOCKADE!

A MILITARY MARRIAGE.

MARYLAND STILL FISHY.

[Special Dispatch to the Chicago Tribune.]

WASHINGTON, May 3.—Some of the Southern advices received here during the last few days, showing indecision on the unanimous uprising of the Northern States for the maintenance of the Union, has taken the starch out of the rebel leaders to a considerable extent; and that, former boasts to the contrary, notwithstanding, only a determination to be roused upon by the Government, when it will be made public, probably to-morrow.

Company A, Chicago Light Infantry, Capt. Harding, and Companies A and B, Chicago Zouaves, arrived here this evening from Cairo. It is supposed they will be quartered at Camp Yates, and will help to make up the first of the ten regiments. Capt. J. D. Webster, of Chicago, late of the Topographical Engineers U. S. A., now at Cairo, attached to Col. Prentiss' command, has been appointed Brigade Inspector First Brigade Illinois Volunteers, with rank of Colonel. The appointment gives great satisfaction.

It is understood that Hon. Owen Lovejoy aspires to the Colonelcy of the Third Congressional District, and Hon. John M. Palmer to that of the Sixth District.

An order has been issued by the Governor calling for an election of Brigadier General of the six regiments mustered into the service of the United States. Three days notice of the election is required after the arrival of the order at the headquarters of each regiment.

Col. Wallace's and Col. McArthur's regiments, both now at Camp Yates, will move to-morrow or Sunday. Destination unknown.

The Cavalry act provides that two companies shall be taken from Chicago, Capt. Barker's, and three south of the line of the Ohio and Mississippi Railroad.

The aggregate appropriations of this General Assembly amount to upwards of three and a half millions, viz: one million for the ten Regiments, half a million for the purchase of arms, and two millions for the defences and protection of the State. There was issued from the Commissariat department, yesterday, at Camp Yates, three thousand five hundred rations. Of these two Regiments, of ten Companies each, with 90 service men each, have been mustered into service; the others are part of those to make up the first Regiment of the ten Regiment bill.

Capt. Ralston's, Capt. Wells's and Capt. Wilson's Companies from McDonough county, arrived last night, and are encamped.

Considerable complaint has been made by newspaper reporters and others, of the closeness with which the secrets of the Adjutant General's office have been kept by that officer; and his promptness and decision in answering questions has been construed in some instances into discourtesy. It should be remembered that from that office have emanated all the orders that have set this vast machinery of war in motion; and that this officer and his assistants have done more work within the last two weeks than is usually done in public offices in as many months; and consequently the time commonly given to the answering of irrelevant or improper questions, has been devolved to important business.

FROM WASHINGTON.

[Special Dispatch to the N. Y. Tribune.]

WASHINGTON, May 3—10 P. M.

The fact is at last demonstrated beyond the shadow of a doubt that the policy of the Administration, now and henceforth, is war. Indecision has ceased. Vacillation has given place, for ten days past. Messrs. Chase, Blair, and Cameron have entered heart and soul into the plan, and but for the wavering of Messrs. Seward and Welles on the 19th inst. the blow would have been a half one. Mr. Welles has received such letters, petitions and appeals from his native county, Hartford, Conn., as to him, an anti-peace doctrine, and finally Mr. Seward has added his undoubting assent to the necessity of coercion.

Senator Wilson, with Judge Hoar of Mass., called upon Mr. Lincoln and each member of the Cabinet to-day, and urged upon them the imperative demand of the country for action, and positive aggressive measures, as adopted. Twice they saw Mr. Lincoln, whose whole nature seemed aglow with patriotic resolve, and by his added his undoubting assent to the necessity of coercion.

Senator Wilson, with Judge Hoar of Mass., called upon Mr. Lincoln and each member of the Cabinet to-day, and urged upon them the imperative demand of the country for action, and positive aggressive measures, as adopted. Twice they saw Mr. Lincoln, whose whole nature seemed aglow with patriotic resolve, and by his added his unqualified assent to the necessity and unity of this great nation before the eyes of the world.

The country may rest assured that the course of the Administration has been, is, and will be, onward and upward. The standard will suffer no degradation in its hands. Nothing, in the past week, will injure it, and all good men will agree in commendations upon the action of our leaders.

VISIT OF MESSRS. OF JEFF. DAVIS.

Jefferson Davis continues in the most dishonorable manner to attempt to seduce Federal officers from their allegiance. So the week being all declared, the last bill approved by the Governor, Mr. McNeil, of Ogle, moved that the session be closed by the united General Assembly singing the "Star Spangled Banner," and that Mr. Wilson of Chicago be requested to lead. The resolution was unanimously adopted. Mr. Wilson gracefully declined, saying, "Waifs he would willingly and heartily join the chorus he would take the liberty of offering a substitute in the person of Capt. Quincy McNeil of Rock Island," was then forward and led off in the glorious old Hymn with power and feeling. Before the first stanza was concluded the Senate entered in a body, the lobby and galleries were densely packed, and all joined the chorus with great enthusiasm. The scene was memorable and impressive. Every heart swelled with feeling, and old political opponents grasped each other by the hand, and mingled their voices in singing and cheering. At the conclusion of the National Anthem, Mr. Church of McHenry moved that Judge Norton of Joliet should administer the oath to defend the Constitution and the flag of our country, and it was carried with enthusiasm. The Judge came forward and administered the oath, which was repeated with measured emphasis by all present, with uplifted hands: "I do solemnly swear, by the ever-living God, that I will support the Constitution of the United States, and of the State of Illinois, and defend the flag of the Union against all assailants, so help me God." Deep solemnity pervaded the assembly, and every one repeated the oath as if earnestly weighing and comprehending its full import.

Mr. Church then rose in his place, and said he could not allow the House to adjourn without expressing the opinion of those who had heretofore acted with him as a political party: That whatever differences had existed in regard to details in the various measures which had been before the House, he was convinced that upon the great question of loyalty to the Union, there was no division of sentiment.

Mr. Barr, of Scott, made a patriotic and effective speech, in reply to Mr. Church, on the other side of the House, and took occasion to endorse Senator Douglas, and concluded with the sentiment of General Jackson: "The Union—it must and shall be preserved."

Then Mr. Speaker Cullom made a few appropriate remarks, thanking the House for the patriotic unanimity with which all measures had been carried, and declared the House adjourned sine die.

The following are the titles to all the acts passed by this session of the General Assembly, as they have been approved by the Governor:

An act to organize six regiments of volunteers of the Illinois Militia, and to provide for the election of regimental officers and a Brigadier General.

An act regulating the election of officers in the volunteer militia of the State of Illinois.

An act to prevent the transportation of troops and munitions of war in this State.

An act making compensation to the Board of Canvassers for the last election.

An act to provide for the appointment of Chaplains for the Illinois Militia when in actual service.

An act to provide for the suppression of riots in its own Territory, repel invasion, and to enforce its own Territory, repel invasion, and to enforce its own prompt obedience to the United States if demanded.

An act to prevent the use of telegraphs for illegal and revolutionary purposes.

An act to encourage the formation and equipment of volunteer companies.

An act making appropriations for the general and contingent expenses of the special session of the General Assembly.

An act creating a war fund, and to provide for meeting the expenses of the military service arising under the call for volunteers.

An act to provide for extraordinary expenses in the Quarter Department.

An act to pay discharged volunteers.

An act to authorize the purchase and efficient arms for the State Militia, and for other purposes.

An act making partial appropriations to meet the expenses of the present General Assembly.

An act to provide for borrowing and to defend the State.

An act to organize Guardians and the board of Guardians of the Chicago Reform School and all acts heretofore relating to said reform school and all acts heretofore relating similar relations to it, repealed.

THE WAR.

ELLSWORTH'S ZOUAVES IN WASHINGTON.

Movements in Maryland.

PREPARING FOR THE BLOCKADE.

Secession Outrages in Missouri.

CALL FOR MORE TROOPS.

Terrible Earthquake.

MAGOFFIN COMING TO HIS SENSES.

Cluib. Jackson's Message.

From Washington Street.

WASHINGTON, May 3.—The principal officers of the Military Department at Washington, are Col. Mansfield, commanding; Maj. Barnard, Chief Engineer; Maj. Bonhaker, Chief of Quarter Master Department; Lieut. Beckwith, Chief of Subsistence Department; and Surgeon Lamb, Medical Inspector.

Col. Ellsworth's Fire Zouaves arrived yesterday, and were enthusiastically cheered.

The 69th New York still guards the Railroad from Annapolis to Washington junction.

The squadron just made up consists of the diplomatic corps at the State Department, the following points were ascertained: first, vessels to blockading ports; when the blockade took effect, will be allowed a reasonable time to depart; second, vessels bringing emigrants, though having had no notice of the blockade at the time of their departure, will not be allowed to enter the blockaded ports; that class of persons coming to the U. S. chiefly to settle in the upper States of the Mississippi river, and it will be better for them to enter in Canada, and thence into the interior, and all casualties incident to the insurrection.

WASHINGTON, May 3.—From private information received here, it is ascertained that Virginia herself does not meditate an attack on Washington, that subject being left to the Southern Confederacy, all the heavy artillery Tsatr throwing troops into Virginia is said to be in anticipation of a declaration of war by Davis's Congress, as it is expected that the large gathering at Manassas Gap is ultimately intended to invade the South.

From Maryland.

PHILADELPHIA, May 3.—The following is an abstract of the report of the Committee on Federal Relations of the Assembly on the subject of communications from the Mayor of Baltimore, relative to the early restoration of railway communication between Baltimore and other cities:

The Committee considered the interruption of travel as aggravated evil, but it facilities for the transportation of troops to Washington and multitudes from the North, who publicly threaten our destruction, it could be hardly considered with prudence to open their channels of intercourse with Northern States. They cannot be efficiently reestablished without guarantee from some quarter for the safety and protection of the road.

The report sustains Gov. Curtin on the course of the Federal Government in stationing troops at the railroad bridges and tunnels on the line of the road, and considers such a course as being treated as a conquered province, and it is therefore the duty of the Legislature to ascertain the position which the General Government is determined to occupy towards this State.

The Committee conclude with the following resolution:

Resolved, That there be appointed Commissioners to confer with the President of the United States, and such persons as he may designate, in relation to the present and any proposed military use and occupation of the State by the General Government, and also to ascertain whether any, and what arrangements are practicable for the maintenance of the peace and honor of Maryland.

The report was adopted by Senate and House.

ANNAPOLIS, May 3.—The garrison of Fort Monroe numbers one thousand Massachusetts men and 200 regulars. Five thousand Virginians were encamped at Hampton.

The Virginians are erecting a battery at the entrance of Hampton Roads.

Troops are expected from the Private Secretary of Gov. Hicks, we learn that Maryland will probably not call a convention. The Secessionists dare not use the power suddenly placed in their hands. The State of Maryland will not be sold by the Governor. A requisition will in time be made for Federal volunteers. A committee of fifty is now up when the outbreak occurred in Baltimore.

Missouri—Governor's Message.

ST. LOUIS, May 3.—The Lower House of the Legislature completed its organization this forenoon, by electing all the old officers, except Reading, who declined, and electing Gov. Boyd. The Governor's Message was delivered to both Houses this morning, after which the Senate went into secret session.

Gov. Jackson says the President in calling out troops to subdue the Seceded States, has unconstitutionally and has inaugurated unconstitutionally andWings, and tending toward a consolidated despotism. While he evidently justifies the action of the Confederate States in seceding, he says that the time was opportune at Secession, but holds the following language: "Our interests and sympathies are identified with those of the Southern States, and necessarily unite our destiny with theirs. The similarity of our institutions, our interests, our habits, our kindred blood, our common origin, territorial contiguity, fall concur in pointing out our duty in regard to the separation now taking place between the States of the Union. Further adds the Governor, that Missouri has at this time no war to prosecute. It is not her policy to make aggression on any State or people, and that the present state of the country she would be faithless to her duty were she to withdraw from the Union at present, and recommends the appropriation of a sufficient sum of money to place the State in the attitude of defence.

In conclusion, he says: "Permit me to appeal to you, and through you to the whole people of the State, to remain calm and self possessed, to do nothing imprudently or precipitately. We have a most solemn duty to perform. Let us then calmly reason one with another, and after due allowance for Virginia excitement and blinder. If this be so (and all the accounts thus far are to the same effect) Commodore Pendegrast should be drummed out of the Navy.

There are two encampments near Richmond, both of which he visited. As near as he could estimate, there were about 2,500 Virginians at the one, and Tennesseans at the other. He thinks there are probably 5,000 more Virginians at Norfolk. The representations of the Virginia newspapers are gross exaggerations, and made for effect. They are, however, drumming up and drilling as fast as possible, but everything naturally moves slow in Virginia. Beauregard was somewhere near the city and Jeff. Davis was expected to-day.

They are full of fight, and have no doubt of their ability to whip all the "Yankees" who can be brought against them. They are a good deal chagrined at not having succeeded in concentrating their forces rapidly enough to have taken Washington, but express a determination to do it yet, when they get a force large enough to surround it and besiege. They are resolved to precipitate Virginia, at all hazards, regardless of the Western portion of the State, and it necessary at the point of the bayonet. Their rage and indignation exceeds all belief.

He overheard a prominent member of the Convention say that it was an indispensable condition to their success that they should get rid of Mr. Lincoln and Gen. Scott, and that *the men had taken a solemn oath to accomplish this.* On the strength of the speaker's oath he gives this as definite assertion.

Provisions were scarce and advancing rapidly. Bacon was from 20 to 25 cts per pound, and but little to be had. The negroes were on *three quarter rations.* This scarcity of supplies is corroborated by a statement in the Richmond *Whig.*

How Constitutions should be Changed.

While the Convention which formed the Constitution of the United States was in session at Philadelphia, Mr. Jefferson, then representing our country at the Court of France, wrote as follows, in a letter addressed to M. Dumas, under date of September 10, 1787:

"Our Federal Convention is likely to sit till October. There is a good deal of debate, elected the States to adopt what they shall propose, and to submit it to a convention chosen in each State, to decide finally. We are not sure how this will end. Nine States must accept the proposition before it can be established, and even then we doubt whether it will not be enforced on the others by arms. Yet we suppose this is the only instance in which any people have had the right of deliberately and peaceably instituting the government on which they will live. Compare this with the mode in which other nations on earth must have recourse to force to establish or to restore their Constitutions."

What a reproach to the present generation is contained in the concluding words of this extract!

The Amount of Lead Required to Kill a Man.

At the meeting held on Monday at Cooper Institute, Doctor Church addressed the audience upon the monetary instincts to war. He said that the great cause of death among soldiers was not wounds, but camp fever. He said, the last time he was in Washington, he was told that 270 pounds of lead were shot away to every man that was killed. Presentation against disease was, therefore, what the soldier chiefly needed.

Proclamation—Call for More Troops.

WASHINGTON, May 3.—The President has issued a proclamation saying that while adhering to peaceful means and adopting measures for the protection of the Constitution and preservation of the Union, by supporting revenue laws and enforcing judicial writs, he has found his efforts powerless, and calls into service for three years, unless sooner discharged, 42000 volunteers, and directs the increase of the regular army by 8 regiments of infantry, 1 of cavalry, 1 of artillery, and 18000 seamen, for not less than one nor more than three years' service.

The plan of enlistment and organization will be submitted to Congress when assembled. He earnestly invites the co-operation of all good citizens to aid the suppression of the rebellion and enforce one of the laws, and for the speediest possible restoration of peace.

Military Movements.

BUFFALO, May 3.—Four companies of volunteers left this afternoon for rendezvous at Elmira. A splendid banner was presented to them by the ladies. Afterwards they were escorted to the depot by the Home Guard, commanded by Maj. ex-President Fillmore. The streets were thronged. Flags were flying and cheering. The 74th and 65th regiments are ready to leave on receipt of orders.

Secession Outrages in Missouri.

LEXINGTON, Mo., May 3.—The Union demonstration here last night was broken up by the secessionists. One Union man was shot, but not seriously injured. There was to be a Union meeting here this evening, but it has been suppressed by the secessionists. The secession flag now waves in front of the Court House.

Delaware.

WILMINGTON, Del., May 3.—Three companies have been sworn in under the Governor's proclamation. He has made requisition for 1,000 rifles, which, added to the arms here, will suffice to place the State in a condition of defence. The Knights of the Golden Circle are plenty, but quiet.

From Boston to Baltimore.

BOSTON, May 3.—By permission of the Secretary of the Treasury, the steamer Bendeford, of the Boston and Baltimore line, will sail to-morrow with a full cargo for Baltimore. She is forbidden to call at Norfolk.

The Blockading Fleet.

FORT HAMPTON, N. I., May 3.—Five war vessels passed within two miles of our shore bound South, about 2 o'clock Wednesday evening. They were probably the blockading fleet from Boston.

From Fort Pickens.

WASHINGTON, May 3.—Capt. Meigs returned to day from Fort Pickens, and says its reduction is utterly impossible for six months.

The mouth of James river and Hampton Roads are strictly blockaded.

Magoffin Coming to His Senses.

LOUISVILLE, May 3.—Gov. Magoffin has issued a proclamation, ordering an election for Representative, to Congress, on June 20th.

A Shipwreck.

MONTREAL, May 2.—There is nothing further concerning the wreck of the steamer Lord Elgin. Two steamers have left to render assistance.

For Washington.

NEW YORK, May 3.—The steamer Chesapeake starts to-day, if the Maine Regiment arrives, direct for Washington.

Louisville Arming.

LOUISVILLE, Ky., May 3.—The Council have appropriated two hundred thousand dollars for arming the city, subject to the ratification of the citizens.

Maj. Anderson Gone to Washington.

PHILADELPHIA, May 3.—Major Anderson passed through this city at noon to-day, en route for Washington.

From Colorado.

FORT KEARNEY, May 3.—The California overland mail coach passed at noon.

DENVER, April 30.—An Indian Council was held at the quarters of Col. Boon, the Indian Agent, yesterday, in which delegations of Arapahoes and Cheyennes took part, and good feeling was expressed; and it is to be hoped the threatening storm of Indian hostilities will be dissipated.

Miners about Gregory are now using water from the consolidated ditch, and in consequence prospects are brightening.

Terrible Earthquake—3,000 Killed.

NEW YORK, May 3d.—The Northern Light has arrived from Aspinwall with $800,000 in treasure.

VALPARAISO, April 2.—Advices say an earthquake destroyed Mendoza; 8,000 persons killed. San Juan also reported destroyed.

Late and Reliable from Virginia.

(From the Cincinnati Gazette, 3d.)

A gentleman called on us last evening, just from Richmond, (having left there Thursday) whom we personally know to be strictly reliable. He was there several days on a visit, and had excellent opportunities of ascertaining the state of affairs.

He says no one dare to be other than for Secession in that city, and the feeling is apparently unanimous. Great excitement exists, and several panics have occurred in consequence of reports of an army advancing from Washington. They are hurriedly fortifying the city, and for this as well as war purposes on an extensive scale. Com. Pendegrast seems to have speedily favored them by leaving the great bulk of the war materials at Portsmouth uninjured. Instead of making sure work of destroying the munitions of war there sensibly and thoroughly, he did so in the most hasty, bungling and ineffectual style.

Many of the spikes in the guns could be pulled out with the fingers. Most of those on the sunken vessels they expected to get, and probably to raise the vessels themselves. A number of sloops and ten-boat schooners had been brought up and were landed at Richmond, while he was there, and were as perfect as if a spike had never touched them. Commodore Pendegrast was perfectly astounded at such conduct, and could have taken his own time and made the destruction complete, but was apparently seized with a fright, and made a most miserable failure in the work assigned him. Such our informant believes to be the facts, after due allowance for Virginia exaggeration and blinder. If this be so (and all the accounts thus far are to the same effect) Commodore Pendegrast should be drummed out of the Navy.

There are two encampments near Richmond, both of which he visited. As near as he could estimate, there were about 2,500 Virginians at the one, and Tennesseans at the other. He thinks there are probably 5,000 more Virginians at Norfolk. The representations of the Virginia newspapers are gross exaggerations, and made for effect. They are, however, drumming up and drilling as fast as possible, but everything naturally moves slow in Virginia. Beauregard was somewhere near the city and Jeff. Davis was expected to-day.

They are full of fight, and have no doubt of their ability to whip all the "Yankees" who can be brought against them. They are a good deal chagrined at not having succeeded in concentrating their forces rapidly enough to have taken Washington, but express a determination to do it yet, when they get a force large enough to surround it and besiege. They are resolved to precipitate Virginia, at all hazards, regardless of the Western portion of the State, and if necessary at the point of the bayonet. Their rage and indignation exceeds all belief.

He overheard a prominent member of the Convention say that it was an indispensable condition to their success that they should get rid of Mr. Lincoln and Gen. Scott, and that *the men had taken a solemn oath to accomplish this.* On the strength of the speaker's oath he gives this as definite assertion.

Provisions were scarce and advancing rapidly. Bacon was from 20 to 25 cts per pound, and but little to be had. The negroes were on *three quarter rations.* This scarcity of supplies is corroborated by a statement in the Richmond *Whig.*

Trusses.

RUPTURES CURED
BY THE
HARD RUBBER RIGGS TRUSS.
This Truss is unlike all others ever offered, both in construction and material. It does not compress or irritate the rupture, and therefore gives instant relief. It is worn with ease by man, woman or child, in any position of the body, retaining the parts in the most perfect manner, and will cure in the shortest time possible. Those who have worn the CORLISS, PHILLOCRYPTAL TRUSS know that it has never failed to cure. Those who have worn other Trusses can also be cured by the Riggs Truss. Call and examine the various kinds of Trusses on hand, or send for a circular. Riggs Truss for sale by Druggists generally. Manufactured by

OLD SACHEM BITTERS
AND
Wigwam Tonic.
THESE DELICIOUS AND FAR-FAMED BITTERS are recommended by the First Physicians of the Country, as a substitute of their PURITY AND GREAT MEDICINAL VIRTUE.
They are pleasant as nectar to the taste, and are pronounced the best Tonic and Stimulant ever offered to the Public.
Their curative powers in cases of GENERAL DEBILITY, LOSS OF APPETITE, CONSTIPATION, Diseases of the Kidneys, and a general tonic, we feel warranted in claiming when so used, we are willing to rest on their own merits, as endorsed by
Prof. SILLIMAN, of Yale College,
Prof. MAYER, of Philadelphia,
and hundreds of others.

Cephalic Pills
CURE
Sick Headache.
CURE
Nervous Headache
CURE
All kinds of
Headache.
An Important Discovery.—The Proprietor of MOFFAT'S LIFE PILLS, after many years of Chemical research, prepared a remedy for Dyspepsia, Indigestion, Bilious Complaints, Scrofula, Coughs and Consumption, which he called
THE MANDRA ARABICA,
and which is a literal translation of the Arabic name for Mandrake. The Mandrake of Arabia cures Scrofula, Consumption, Bronchitis, Coughs and Colds. The Mandrake of Arabia cures Sore Throat, Chronic Diarrhœa, Dysentery, Cholera Morbus, Liver Complaint, Dyspepsia, Indigestion, Headache, Dizziness, Nervousness, Sleeplessness, Low Spirits, Melancholy, Nervous Affections of all kinds, Fevers, Ague and Fever, Bilious Fever, Typhus Fever, Scarlet Fever, Yellow Fever, Fever and Ague, Chills and Fever, Pleurisy, Inflammation of the Lungs, Inflammation of the Kidneys, Inflammation of the Bowels, Inflammation of the Stomach, Inflammation of the Liver, Inflammation of the Womb, Inflammation of the Bladder, Inflammation of the Urethra, Inflammation of the Prostate Gland, Inflammation of the Rectum, Inflammation of the Mucous Membranes, Inflammation of the Skin, Inflammation of the Eyes, Inflammation of the Ears, Inflammation of the Throat, Inflammation of the Nose, Inflammation of the Face, Inflammation of the Breast, Inflammation of the Joints, Inflammation of the Limbs, Inflammation of the Feet, Inflammation of the Hands, Inflammation of the Head, Inflammation of the Neck, Inflammation of the Back, Inflammation of the Chest, Inflammation of the Abdomen, Inflammation of the Muscles, Inflammation of the Nerves, Inflammation of the Arteries, Inflammation of the Veins, Inflammation of the Glands, Inflammation of the Secretions, Inflammation of the Excretions, Inflammation of the Blood, Inflammation of the Flesh, Inflammation of the Bones, Inflammation of the Cartilages, Inflammation of the Ligaments, Inflammation of the Tendons, Inflammation of the Membranes, Inflammation of the Cellular Tissue, Inflammation of the Nervous System, Inflammation of the Vascular System, Inflammation of the Absorbent System, Inflammation of the Digestive Organs, Inflammation of the Respiratory Organs, Inflammation of the Secretory Organs, Inflammation of the Excretory Organs, Inflammation of the Reproductive Organs, Inflammation of the Assimilative Organs, Inflammation of the Circulating Organs, Inflammation of the Nervous Organs, Inflammation of the Vascular Organs, Inflammation of the Absorbent Organs, Inflammation of the Digestive Organs, Inflammation of the Respiratory Organs, Inflammation of the Secretory Organs, Inflammation of the Excretory Organs, Inflammation of the Reproductive Organs, Inflammation of the Assimilative Organs, Inflammation of the Circulating Organs, Inflammation of the Nervous Organs, Inflammation of the Vascular Organs, Inflammation of the Absorbent Organs.
They are entirely vegetable in their composition, and may be taken at any time without fear of injury without confining from business or exposure.
They are mild in their operation, but powerful in their effects, and strength of the whole system.
The CEPHALIC PILLS are the result of long study, and a thorough and laborious practice of years, and suffering from Headache, whether originating in the nervous system or from a deranged state of the stomach, and

Chicago Tribune.

SATURDAY, MAY 4, 1861.

THE CITY.

THE LATTER LIST.—The list of advertised letters in the Chicago Post Office, appears on the third page of this issue.

MISSIONS FOR THE BLIND.—An arrival by lake of the schooner Missionary, brings thirty tons of potatoes from Cleveland for the true intent of rebellion. We are making the pills here.

TREMONT HOUSE.—The handsome and substantial stone sidewalks on both the Lake and Dearborn street fronts of the Tremont House, are, we are happy to see, open to the public.

LARCENY.—A man named Charles Lonk was held to bail in yesterday's Police Court, in $500 bail, for the larceny at the State street boarding house. Heffernan and Emma Cunningham, arrested with him, were discharged.

PATRIOTIC.—The teachers and pupils of the High School bellowing the Stars and Stripes as good to study under as to fight under, are preparing to erect a beautiful flag on their edifice.

BOARD OF PUBLIC WORKS.—The offices on the northeast end of the second story vestibule of the Court House, lately the City Marshal's office, are being fitted up for the occupancy of the Board of Public Works.

THE NEW SHERMAN HOUSE.—A year ago on May 1st, work was begun tearing down the old Sherman House. The noble edifice that the Infernal has seen erected in its place is a very handsome and notable year's work.

A NEW PATRIOTIC BADGE.—J. E. Whitney, of St. Paul, has issued an exquisite little photograph of President Lincoln, the centre of a cockade in "red, white and blue," which will be sure to take. Hosier has them at his Art Gallery.

A LITTLE WANDERER.—A little girl, of four or five summers, was found astray and lost in the street yesterday, and taken to the home of a citizen residing on the corner of State and Congress streets, where her friends may find her.

PERSONAL.—Hon. S. A. Douglas and family; Hon. J. D. Caton, and family, Judge of the Supreme Court; Hon. Jno. Logan, Ill; Hon. Russel Sage, New York; Gov. Randall, and Judge Hood, of Wisconsin, are stopping at the Tremont House.

Y. M. CHRISTIAN ASSOCIATION.—The Young Men's Christian Association announce a Prayer Meeting for this Saturday evening, at Lecture Room, adjoining their Rooms in Methodist Church Block, on the corner of Clark and Washington streets. Our military are especially invited to be present. The Illinois Rangers have signified their intention to accept the invitation.

THE ATLANTIC MUTUAL.—Nothing can be written editor ally that will have half the weight possessed by the figures in our advertising columns, which declare the basis and status of the Atlantic Mutual Insurance Co. of New York, for the year ending 31st of December, 1860. It would be a work of supererogation for us to descant on the matter, as to the initiated in insurance business, the proof thus given is better than anything we could say of a Company of reputation and standing acknowledged unsurpassed.

RELIGIOUS MATTERS.—On Sunday morning at the Bishop's Chapel, corner West Washington and Peoria streets, will take place the interesting service of the public renunciation of the errors of the Romish Church by the Priest, and his reception into the ministry of the Protestant Episcopal Church in the United States. Mr. F. A. Jung is a highly educated Frenchman, and will be permanently attached as Chaplain to the Bishop, preaching every Sunday afternoon in his own language to such of our French fellow citizens as may attend. It will afford an opportunity also for those who have studied the language to cultivate a familiar use of it by the Liturgy and the appeals of the pulpit.

KILLED ON A RAILROAD TRACK.—The mutilated body of a man was found lying on the Galena railroad track, near the depot, on Thursday evening. Nothing was developed which would lead to an identification of the unfortunate deceased. The body was that of a man about five feet eight inches high; brown hair and candy whiskers. The dress was a heavy black cloth coat; pants of the same material; black broadcloth vest; black silk cravat; mixed gray drawers; new black velvet cap. There was found upon the body a white handled knife, a fragment of a Sunday School newspaper, and a one dollar bill. Coroner James held an inquest, and retains in his possession the effects of the unhappy man.

THE ILLINOIS RANGERS.—The Illinois Rangers, organized with a full complement of picked men as a Cavalry corps, held their election of officers yesterday, and gave the command into the capable hands of Captain Frank Bennett, for three years in this branch of the U. S. service under Gen. Harney. Capt. Bennett left for Springfield last evening in company with Capt. Barker of the Dragoons, to tender the services of the Rangers to Gov. Yates.

By the new law organizing a Cavalry Regiment the State does not furnish horses but allows 40 per week for the use of each horse. There will be no trouble with the Dragoons or Rangers in this respect, however for if accepted, unless we mistake the character and intent of our citizens greatly, Chicago can and will equip them in a week's time in points not provided by the State. The boys are in for the war.

Meanwhile with generosity entirely characteristic, T. B. Bryan, Esq., has tendered the Rangers the use of his lower hall as a drill room. They meet to-day at 8 A. M. and 2 P.M.

NEW GERMAN LUTHERAN CHURCH AT DUNCKLEY'S GROVE.—The wealthy German settlement, north of Cottage Hill, and about twenty miles from Chicago, are adding another Church to the number already erected; a very tasteful edifice having been built, but a year ago. The celebrating of the laying of the corner stone took place on last Wednesday, May 1st, and from quite a distance came the farmers with their families, to take part in the ceremonies. After singing a choral, and a prayer, Pastor C. Francke gave an excellent sermon on the text: "Then Samuel took a stone and set it between Mizpeh and Shen, and called the name of it Eben-ezer, saying, hitherto has the Lord helped us." 1 Sam. 7, 12.

The Church is to be built in the Romanesque style, 60 feet front by 90 feet deep; of white Dundee Brick, with elegant cut stone arches, corbels, pilasters, trimmings, door steps, etc. The tower 14 feet square, rises to an elevation of 120 feet. The side windows are 18 feet high, and glazed with colored and rich stained glass, set in lead. The contract for completing the building by the 1st of November next is $16,000. It will certainly be one of the finest of country Churches in the Northwest. Among the plans proposed to the Committee, the one made by Otto H. Maix, Esq., was adopted and the supervision of the work given to him. The 1st of May will long be remembered by our German friend in Dupage county, and we wish them the best success and speedy completion of their elegant structure.

A Word to our Volunteers.

It is the natural result of causes entirely and most honorably creditable to the patriotism of this section, that here as throughout the whole North, there is just now an excess of volunteers, over and above the number whose immediate enrollment into service is provided for. Several thousand brave fellows in this city and State are eager for active service, for whose actual enrollment no provision has been made, either by the Federal Government or our State Legislature. This is making disappointment. Many are chafing at delay, and many are making heavy sacrifices, or have made, and can ill afford to abandon their present condition of volunteers out of service.

We have no say to those to petition Congress humbly. Keep up your organization. Go on with your drill. Take energetic and sensible measures for procuring your equipments as citizen military corps. This is no short task now devolved upon the loyal States, and there will be abundant room for all to serve their country. We have thirteen Chicago companies in the field. We should equip as many more at once, to be held in readiness and that information passed to Gov. Yates and Washington. Every day and hour the Secretary said what the regular call of the country for troops would be, and companies are now in the field in excess of the number called for. Let us be ready to take our place in the line of march. Organize companies and get them ready. Drill and equip them. Let the Governor know that we are ready. Let the Secretary of War know that we are ready. Let the President know that we are ready. Let the whole country know that we are ready. Let us be ready to take our place in the line of march. Organize companies and get them ready. Drill and equip them. Let the Governor know that we are ready. Let the Secretary of War know that we are ready. Let the President know that we are ready. Let the whole country know that we are ready.

A meeting was held last evening at the Court House, to take measures for the organization of a Volunteer Corps. Mayor Wentworth was called to the chair, and Col. Mulligan appointed Secretary. Col. Mulligan stated the object of the meeting, and was followed by Col. Taylor, Col. Swift, Col. Fuller, Col. Hoyne, Col. Ellsworth, Col. Wilson, Col. Mulligan,
